Meril Orthopedic

Meril is known for an uncompromising attitude when it comes to quality of design. Providing the medical world with zero defect devices is our only motto. Our orthopedic trauma products---Meril Locking Plate System 3.5, Meril Locking Plate System 4.5, Meril Compression Plate System 3.5, Meril Compression Plate System 4.5, Meril Dynamic Hip Fixation System, and Meril Locking Distal Radial System 2.4 are specifically designed to treat fractures, bone tumour and deformities. They boast of high fatigue strength, proper fixation and negligible soft tissue damage.

We have been providing trauma implants for the foot, shoulder, hip, hand, pelvis, and condyles. In order to ensure smooth and trouble-free operating procedures leading medical professionals rely only on our Trauma products. We have carried out performance testing to prove our design for its endurance and durability and the outcome of these tests prove that they are going to create a dynamic image in the history of joint replacement.
